Des polluants dans l'eau minérale ?

En 2013, une étude de 60 millions de consommateurs a révélé que certaines eaux minérales contenaient des traces de polluants. Selon le rédacteur en chef du magazine, il n'y aurait pas lieu de s'inquiéter, les particules étant présentes en très faible quantité...

Landfill and incineration are problematic options because they release toxins into the soil we cultivate and the air we breathe. If this level is between 500 and 1,500 mg/L, the water is moderately mineralized. 2.5.0.0 2.5.0.0 Water makes up about 60% of the human body. The second element to consider is the pH of the water. The regions most affected are the Loiret, Seine-Marne, Yonne, Aube, Marne, Pas-de-Calais and Somme. However, it should be avoided in case of swelling as it releases gas into the digestive tract. They do not undergo any treatment, so these waters are cleaner than the tap water, although the difference remains very small. Á " .Á " The role of water is to clean the body. Then let's move on. Contrary to popular belief, drinking water, for regular daily consumption, must be weakly mineralized. Excessive consumption of minerals can be harmful to the body. Tap water is the most controlled food product in France, so its consumption is safe for 95.6% of consumers. Very often it is expressed in milligrams per litre. The filtering systems are then adopted in order to obtain an even better quality water despite the numerous checks already carried out. In most cases, tap water benefits from a much cheaper and less expensive distribution system than bottled water. The first factor to consider when choosing a water bottle is the amount of dry residue it contains. On the contrary, they are subject to specific rules and can reach high mineral contents which are not tolerated for some tap. Can we trust water tap? It is therefore advisable let tap water flow for a moment before consuming itÁ The gaseous water can be consumedAs time, but it must not compose the Á Ágreater inputÁwater for the body because it is chargedÁ© in minÁ © raux.
